

# Altar in the Valley [Lyrics]

[Default Arrangement]

## VERSE 1:

In shadow's wake  
In blackened depths  
You hold the rod  
That guides my steps  
When I'm tossed among the wind  
Your promise never dims  
Though the seasons pass away  
Your goodness never fades  
So I choose

## Chorus:

To build an altar in the valley  
With every stone know you are with me  
Until I see you face to face  
And every tear is wiped away  
I'll make the choice to say I love you through this pain  
I'll build an altar in the valley

## VERSE 2:

When questions reign  
And doubt surrounds  
You hold the staff  
That lights my path  
When the horizon veils its face  
Your nature doesn't change  
When the present clouds the end  
You are worthy even then

## Chorus:

I'll build an altar in the valley  
With every stone know you are with me  
Until I see you face to face  
And every tear is wiped away  
I'll make the choice to say I love you through this pain  
I'll build an altar in the valley

## Bridge:

Step by step  
Lord I will follow  
You're here today  
You'll still be tomorrow  
When I don't have the faith to trust you  
Still I choose to

Stone by stone  
This is my offering  
All my heart  
Sifted through suffering  
When I don't have the strength to praise you  
Still I choose to

## Altar in the Valley -

When I don't have the faith to trust you  
Still I choose to  
When I don't have the strength to praise you  
Still I choose

### **Chorus 3:**

To build an altar in the valley  
With every stone know you are with me  
Until I see you face to face  
And every tear is wiped away  
I have the joy to say I love you through this pain  
I build an altar in the valley
