

# Come and See [Lyrics, 68 bpm, 4/4]

[Default Arrangement] by Matthew McGinley

## Chorus

Come and see the Lord is good  
Come and see His love never fails you  
Put your hand into His side  
See the scars within His hands  
Look into the Savior's eyes  
As He calls you

## Verse:

I will never forget the day He called  
I will never regret when I left it all behind me  
With His robe on my back  
I never look for the rags  
I used to know  
Cause now I'm home

## Bridge:

You think that blind man  
Regrets the day when  
He saw his Savior through open eyes  
You think that leper  
Forgot the day when  
He felt the touch of his Savior's love  
You think that mute man  
Wouldn't tell you about Him  
You think the dead would stay in their grave  
How could that lame man  
go back to never walking again  
How could that captive  
Remain in his chains  
How could I ever go back to nothing  
When I have everything I'll ever need  
How could I ever go back to nothing  
When I have everything I'll ever need

## Chorus 2:

I have seen the Lord is good  
I have seen His love never fails me  
I put my hand into His side  
I see the scars within His hands  
I look into my Savior's eyes  
As He calls me
