

STAND ON THE EMPTY GRAVE [C]

Matthew McGinley, Corey Voss
CCLI #: 7096686

VERSE 1

You were the voice within the fire
And the whisper in the wind
The one who tamed the mouths of lions
You're the beginning and the end

VERSE 2

You're the love that bore our burdens
And the grace that took our shame
You have won the fight with darkness
And you put death in its place

PRE-CHORUS

You are on the throne, You have won it all

CHORUS

Your love unfailing higher than any mountain
Deeper than any ocean, You've won my heart
And I know I'm holding to every word You've spoken
Your never-ending promise that You've overcome
So I stand on the empty grave
I stand on the empty grave

VERSE 3

I feel You moving on the waters
Bending seas to set me free
I know You're fighting all my battles
Lord You are my victory

PRE-CHORUS

You are on the throne, You have won it all

CHORUS

Your love unfailing higher than any mountain
Deeper than any ocean, You've won my heart
And I know I'm holding to every word You've spoken
Your never-ending promise that You've overcome
So I stand on the empty grave
I stand on the empty grave

BRIDGE

There is no chain that You cannot break
There is no stronghold that You cannot take down
Out of the empty grave You've made a way now
You are on the throne, You have won it all

CHORUS

Your love unfailing higher than any mountain
Deeper than any ocean, You've won my heart
And I know I'm holding to every word You've spoken
Your never-ending promise that You've overcome
So I stand on the empty grave
I stand on the empty grave
