

# Speak Peace [Lyrics, 68 bpm]

[Default Arrangement]

## VERSE 1:

When the weight is more than I can bear  
And the burden is more than I can take  
When fear has built a prison wall around my heart  
You show me that the key is in your hands

## CHORUS 1:

I know like a current in the ocean  
I may not see but you're moving underneath  
I don't have to know the answer  
'Cause I'll find you in the question  
I won't focus on the giant  
I'll find you working through the stone

## VERSE 2:

When the darkness is whispering its lies  
And the shame is telling me to hide  
When anxiety is hanging on to every thought  
You tell me my whole life is in your hands

## CHORUS 2:

I know there's a river in the wasteland  
There's a voice breathing life into the dust  
You're not shaken by my doubting  
But you're moved by my seeking  
I'll find rest in the madness  
And your voice in the raging storm

## BRIDGE:

You speak peace  
You speak peace  
you speak peace  
be still and know  
So I speak peace  
I speak peace  
I speak peace  
Be still my soul

## CHORUS 3:

I know there's a glimmer in the darkness  
You make a way when my fear is caving in  
I'll sow your peace into the chaos  
And there I'll see the harvest  
I know you're always working  
You never leave when I need you most  
You won't leave now that I need you most
